## EDUCATION

|                                                                                  |                       |
|----------------------------------------------------------------------------------|-----------------------|
| <b>Doctor of Philosophy in Bioinformatics and Statistics (Co-Major)</b>          | <i>December 2017</i>  |
| <i>North Carolina State University, Raleigh, NC</i>                              |                       |
| Dissertation: Phylogenetic Approaches for Quantifying Interlocus Gene Conversion |                       |
| Committee: Jeffrey Thorne, Eric Stone, Nadia Singh and Sujit Ghosh               |                       |
| <b>Master of Science in Material Science and Engineering</b>                     | <i>September 2013</i> |
| <i>North Carolina State University, Raleigh, NC</i>                              |                       |
| Thesis: Laser Interference Lithography for Fabrication of Gas Sensors            |                       |
| Committee: John Muth, Lew Reynolds, Michael Kudenov and Jon-Paul Maria           |                       |
| <b>Bachelor of Science in Economics (Double Major)</b>                           | <i>July 2011</i>      |
| <i>Peking University, Beijing, China</i>                                         |                       |
| <b>Bachelor of Science in Physics</b>                                            | <i>July 2011</i>      |
| <i>Peking University, Beijing, China</i>                                         |                       |
| Advisor: Jia-Sen Zhang                                                           |                       |

## APPOINTMENTS

|                                                                      |                              |
|----------------------------------------------------------------------|------------------------------|
| <b>Assistant Professor</b>                                           | <i>Jan. 2026 – Present</i>   |
| <i>Department of Statistics, Iowa State University, Ames, IA</i>     |                              |
| <b>Assistant Professor</b>                                           | <i>July 2020 – June 2026</i> |
| <i>Department of Mathematics, Tulane University, New Orleans, LA</i> |                              |
| <b>Faculty Investigator</b>                                          | <i>Nov. 2024 – Dec. 2025</i> |
| <i>Tulane Biostatistics and Bioinformatics Core</i>                  |                              |
| <b>Faculty Member</b>                                                | <i>Oct. 2021 – Dec. 2025</i> |
| <i>Cancer Center, Tulane University, New Orleans, LA</i>             |                              |
| <b>Postdoctoral Fellow</b>                                           | <i>Jan. 2018 – July 2020</i> |
| <i>University of California, Los Angeles, CA</i>                     |                              |

## RESEARCH INTERESTS

Multigene family evolution; cancer systems biology; phylogenetics with large data sets; development of statistical techniques and software

## TEACHING EXPERIENCE

---

### Assistant Professor

*Department of Statistics, Iowa State University, Ames, IA*

- Spring 2026
  - ***STAT 4212/5212 Section 03 Experimental Design and Data Analysis (3 credits)***  
 ISU Canvas site: <https://canvas.iastate.edu/courses/126618>  
 Level: Undergraduate, Graduate  
 Topics: Sample size and power, Blocking, factorial treatment design, split plot design, repeated measures  
 Enrollment: 20

### Assistant Professor

*Department of Mathematics, Tulane University, New Orleans, LA*

Summary: I regularly teach graduate-level Math 7260 (Linear Models) and Math 7360 (Data Analyses, a Tulane version of statistical learning), and undergraduate-level Math 3070 (Intro to Probability). Periodically, I teach Math 1230 Stats for Scientists, which is designed for students with non-math majors.

- Fall 2025
  - ***Math 3070/6070 Intro to Probability (3 credits)***  
 GitHub site: <https://tulane-math-3070.github.io/2025Fall/>  
 Level: Undergraduate, Graduate (Master)  
 Topics: Axioms of probability, discrete and continuous random variables, multivariate distributions, expectation, limit theorem  
 Enrollment: 42
- Spring 2025
  - ***Math 6040/7260 Linear Models (3 credits)***  
 GitHub site: <https://tulane-math-7260.github.io/2025Spring/>  
 Level: Graduate (Master + Ph.D.)

Topics: Simple and multiple linear regressions, hypothesis testing, analysis of variance, bootstrap, logistic regression

Enrollment: 7

- Fall 2024
  - ***Math 1230 Stats for Scientists (3 credits)***  
Level: Undergraduate  
Topics: Probability, random variable, discrete and continuous distributions, sampling distributions, one and two-sample estimations, hypothesis testing, simple linear regression  
Enrollment: 62
  - ***Math 3070/6070 Intro to Probability (3 credits)***  
GitHub site: <https://tulane-math-3070.github.io/2024Fall/>  
Level: Undergraduate, Graduate (Master)  
Topics: Axioms of probability, discrete and continuous random variables, multivariate distributions, expectation, limit theorem  
Enrollment: 33
- Spring 2024  
Teaching Relief
- Fall 2023
  - ***Math 7360 Data Analysis (3 credits)***  
GitHub site: <https://tulane-math-7360-2023.github.io/>  
Level: Graduate (Master + Ph.D.)  
Topics: R, RMarkdown, Rcpp, git, data visualization using ggplot2, web scraping, linear models, generalized linear models, neural network, classification  
Enrollment: 22
  - ***Math 3070/6070 Intro to Probability (3 credits)***  
GitHub site: <https://tulane-math-3070.github.io/2023Fall/>  
Level: Undergraduate, Graduate (Master)  
Topics: Axioms of probability, discrete and continuous random variables, multivariate distributions, expectation, limit theorem  
Enrollment: 48
- Spring 2023
  - ***Math 6040/7260 Linear Models (3 credits)***  
GitHub site: <https://tulane-math-7260.github.io/2023Spring/>  
Level: Graduate (Master + Ph.D.)  
Topics: Simple and multiple linear regressions, hypothesis testing, analysis of variance, bootstrap, logistic regression  
Enrollment: 13
  - ***Math 7980 Independent Study (3 credits)***  
Level: Graduate (Master)  
Topics: Item response theory models  
Enrollment: 1
- Fall 2022

- ***Math 3070/6070 Intro to Probability (3 credits)***  
 GitHub site: <https://tulane-math-3070.github.io/2022Fall/>  
 Level: Undergraduate, Graduate (Master)  
 Topics: Axioms of probability, discrete and continuous random variables, multivariate distributions, expectation, limit theorem  
 Enrollment: 37
- ***Math 1230 Stats for Scientists (3 credits)***  
 Level: Undergraduate  
 Topics: Probability, random variable, discrete and continuous distributions, sampling distributions, one and two-sample estimations, hypothesis testing, simple linear regression  
 Enrollment: 66
- ***Math 7980 Independent Study (3 credits)***  
 Level: Graduate (Ph.D.)  
 Topics: Bayesian Phylogenetics  
 Enrollment: 1
- Spring 2022
  - ***Math 6040/7260 Linear Models (3 credits)***  
 GitHub site: <https://tulane-math-7260.github.io/2022Spring/>  
 Level: Graduate (Master + Ph.D.)  
 Topics: Simple and multiple linear regressions, hypothesis testing, analysis of variance, bootstrap, logistic regression  
 Enrollment: 16
  - ***Math 7980 Independent Study (3 credits)***  
 Level: Graduate (Master)  
 Topics: Review of optimization methods  
 Enrollment: 1
- Fall 2021
  - ***Math 7360 Data Analysis (3 credits)***  
 GitHub sites: <https://tulane-math-7360-2021.github.io/>  
 Level: Graduate (Master + Ph.D.)  
 Topics: R, RMarkdown, Rcpp, git, data visualization using ggplot2, web scraping, linear models, generalized linear models, neural network, classification  
 Enrollment: 19
- Spring 2021
  - ***Math 6040/7260 Linear Models (3 credits)***  
 GitHub site: <https://tulane-math-7260.github.io/2021Spring/>  
 Level: Graduate (Master + Ph.D.)  
 Topics: Simple and multiple linear regressions, hypothesis testing, analysis of variance, bootstrap, logistic regression  
 Enrollment: 17
- Fall 2020
  - ***Math 7360 Data Analysis (3 credits)***

GitHub site: <https://tulane-math7360.github.io/>

Level: Graduate (Master + Ph.D.)

Topics: R, RMarkdown, Rcpp, git, data visualization using ggplot2, web scraping, linear models, generalized linear models, neural network, classification

Enrollment: 12

## STUDENT ADVISING

---

### Co-Supervisor (Doctoral)

2024 –

*Department of Computational Biology, Institut Pasteur  
Paris, France*

*Present*

- Student name: John Tay
- Supervisor: Sebastian Duchene
- Research Title: TBD

### Committee Chair (Master)

2023 –

*Department of Mathematics, Tulane University, New Orleans, LA*

*Present*

- Student name: Yufei Zou
- Research Title: Evolutionary inference with interlocus gene conversion

### Committee Chair (Doctoral)

2022 –

*Department of Mathematics, Tulane University, New Orleans, LA*

2026

- Student name: Yuwei Bao
- Research Title: Reflective Hamiltonian Monte Carlo method

### Dissertation Defense Committee Chair (Doctoral)

2026

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Yuwei Bao
- Chair: Xiang Ji
- Research title: Reflective Hamiltonian Monte Carlo method

### Dissertation Defense Committee Member (Doctoral)

2026

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: John Argentino
- Chair: Michelle Lacey
- Research title: Multivariate Modeling Techniques for Estimating Assistance Impacts from Daily Food Security Surveys

### Prospectus Exam Committee Member (Doctoral)

2025

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Sinchita Lahiri
- Chair: Samuel Punshon-Smith and Kyle Kun Zhao
- Research title: Analyzing the Decay Rates in PDE Systems

### Prospectus Exam Committee Member (Doctoral)

2025

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: John Argentino
- Chair: Michelle Lacey

- Research title: Multivariate Modeling Techniques for Estimating Assistance Impacts from Daily Food Security Surveys
- Dissertation Defense Committee Member (Doctoral)** 2025
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Linh Do
  - Chair: Scott McKinley
  - Research title: Statistical techniques for comparing populations of continuous piecewise-linear stochastic processes
- Prospectus Exam Committee Chair (Doctoral)** 2024
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Yuwei Bao
  - Chair: Xiang Ji
  - Research title: Scalable Bayesian statistical phylogenetics models
- Dissertation Defense Committee Member (Doctoral)** 2024
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Daniela A. Florez Pineda
  - Chair: Ricardo Cortez
- Oral Exam Committee Member (Doctoral)** 2024
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: John V. Argentino
  - Chair: Michelle Lacey
- Prospectus Exam Committee Member (Doctoral)** 2024
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Daniela A. Florez Pineda
  - Chair: Ricardo Cortez
  - Research title: Mathematical models for transmission and control of mosquito-borne diseases
- Prospectus Exam Committee Member (Doctoral)** 2023
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Linh Do
  - Chair: Scott McKinley
  - Research title: Statistical techniques for comparing populations of continuous piecewise-linear stochastic processes
- Oral Exam Committee Member (Doctoral)** 2023
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Moslem Uddin
  - Chair: Lisa Fauci
- Oral Exam Committee Chair (Doctoral)** 2023
- Department of Mathematics, Tulane University, New Orleans, LA*
- Student name: Yuwei Bao
  - Chair: Xiang Ji

**Oral Exam Committee Member (Doctoral)** 2023

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Sinchita Lahiri
- Chair: Kyle Kun Zhao

**Oral Exam Committee Member (Doctoral)** 2022

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Linh Do
- Chair: Scott McKinley

**Oral Exam Committee Member (Doctoral)** 2022

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Daniela A. Florez Pineda
- Chair: Ricardo Cortez

**Independent Study Advisor (Master)** 2022

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Paul Pluscht
- Project topic: Review of optimization methods

**Undergraduate Research Advisor (Undergraduate)** 2020 –

*Department of Statistics, North Carolina State University, Raleigh, NC* 2022

- Student name: Yixuan Yang
- Co-advisor: Jeffrey L. Thorne
- Research topic: Quantifying interlocus gene conversion and natural selection

**Undergraduate Research Advisor (Undergraduate)** 2021

*Department of Mathematics, Tulane University, New Orleans, LA*

- Student name: Jiayun Ling
- Co-advisor: Xin Jiang
- Research topic: Item response theory model, Add Health data, social science

## MENTEE ACHIEVEMENTS

---

Megan (Jiayun) Ling (undergraduate research advisor) 2021

- Oral presentation at ASA Louisiana Chapter meeting in 2021
- Graduated from master's program in Data Analytics of Duke University
- Now working as Data Analyst at Blizzard Entertainment

Yuwei Bao (PhD thesis advisor) 2022 –

2026

- Oral presentation at ASA Louisiana Chapter meeting in 2022
- Oral presentation at Tulane Math Graduate Student Colloquium in 2022
- Oral presentation at Evolution Meeting 2023
- Oral presentation at Scientific Computing Around Louisiana Meeting 2023
- Oral presentation at Math for All in Nola meeting 2023
- Poster presentation at New England Statistical Symposium 2024
- Poster presentation at Pharmaceutical Data Science Conference online 2024

- Poster presentation at ASA Conference on Statistical Practice 2024
- Tuition Scholarship & Travel Award at Summer Institute in Statistical Genetics 2023
- Travel Award from Society for Study of Evolution at Evolution Meeting 2023
- Summer Research Fund from Math Department at Tulane University 2023
- Travel Award from Graduate Studies Student Association at Tulane University 2023 & 2024
- Student Poster Award at New England Statistical Symposium 2024
- FDA-OCE-ASA Oncology Educational Fellow 2024
- Internship at Moderna Spring 2025
- Biostatistician at Foundation Medicine starting July 2026

Yufei Zou (undergraduate & PhD research advisor)

2022 –

- Tuition Scholarship & Travel Award at Summer Institute in Statistical Genetics 2023
- Oral presentation at ASA Louisiana Chapter Meeting on May 19, 2025
- Oral presentation at Evolution Meeting 2025
- SSE Caregiver Awards for attending Evolution Meeting 2025
- Attending PhD program in Data Science at UNC Charlotte
- Poster presentation at Data Science Across North Carolina 2025 at UNC Chapel Hill

## AWARDS

|                                                       |                                 |      |
|-------------------------------------------------------|---------------------------------|------|
| HPC Fund Research Cloud Allocation Award <sup>1</sup> | AMD Corporation                 | 2023 |
| NVIDIA Academic Hardware Grant <sup>2</sup>           | NVIDIA Corporation              | 2022 |
| Tuition Scholarship                                   | SISMID <sup>3</sup>             | 2018 |
| NIEHS Fellowship <sup>4</sup>                         | North Carolina State University | 2015 |
| SAMSI Graduate Fellow                                 | SAMSI <sup>5</sup>              | 2014 |
| Tuition Scholarship                                   | SISG <sup>6</sup>               | 2013 |
| University Graduate Fellowship                        | North Carolina State University | 2011 |

## FUNDED PROJECTS

### External

#### National Institute of Health

??/??/26 –

- Title: Statistical innovation to integrate sequences and phenotypes for scalable phylodynamic inference
- Principle Investigator: Marc A. Suchard
- Subaward Investigators: Xiang Ji
- Total Amount: \$1,833,000

??/??/31

<sup>1</sup> 1,080 node hours (targeting 4 MI100 GPUs/node)

<sup>2</sup> Donation of one A100 80Gb PCIE GPU card

<sup>3</sup> SISMID: Summer Institute in Statistics and Modeling in Infectious Diseases at the University of Washington at Seattle

<sup>4</sup> The funds were matched through North Carolina State University

<sup>5</sup> SAMSI: The Statistical and Applied Mathematical Sciences Institute

<sup>6</sup> SISG: Summer Institute in Statistical Genetics at the University of Washington at Seattle

- Status: Not Funded

## National Institute of Health

2024

- Title: Characterizing intra- and inter-host Nov evolution using human challenge study samples
- Principle Investigator: Pengbo Liu
- Subaward Investigators: Xiang Ji
- Shared Amount: \$120,018
- Status: Not Funded

## CONFERENCE PRESENTATIONS

---

### Upcoming Presentations

- 4 **Ji, X.** (2026, July, invited talk) *Action-based phylogenetic likelihood calculations for large state-space models*. ISBA-EAC conference, Kunming, Yunnan, China
- 3 **Ji, X.** (2026, June, invited talk) *Scalable divergence time estimation via Hamiltonian Monte Carlo sampling*. ICSA Applied Statistics Symposium, Arlington, VA
- 2 **Ji, X.** (2026, May, invited poster) *Action-based phylogenetic likelihood calculations for large state-space models*. STATGEN 2026, Emory University, Atlanta, GA
- 1 **Ji, X.** (2026, May, invited talk) *Detecting evolutionary change-points with branch-specific substitution models and shrinkage priors*. ASA Midwest Regional Conference in Statistics and Data Science, University of Minnesota, Minneapolis, MN

### Oral Presentations

- 12 **Ji, X.** (2025, October) *Scalable phylogenetic inference with Hamiltonian Monte Carlo method*. Statistics and AI in Precision Health and Biology, AMS Sectional Meeting, Tulane University, New Orleans, LA
- 11 **Ji, X.** (2025, August) *Quantitative traits on massive trees with many incomplete measurements*. JSM 2025, Nashville, TN
- 10 **Ji, X.** (2025, June) *Action-based phylogenetic likelihood calculations for large state-space models*. Evolution 2025 Meeting, University of Georgia, Athens, GA
- 9 **Ji, X.** (2025, June) *Scalable divergence time estimations with Hamiltonian Monte Carlo method*. 2025 International Indian Statistical Association Conference, University of Nebraska-Lincoln, Lincoln, NE
- 8 **Ji, X.** (2025, May) *Scalable evolutionary analysis with Hamiltonian Monte Carlo methods*. STATGEN 2025: Conference on Statistics in Genomics and Genetics, ASA Section on Statistics in Genomics and Genetics, University of Minnesota, Minneapolis, MN
- 7 **Ji, X.** (2025, May) *Action-based phylogenetic likelihood calculations for large state-space models*. 2025 Spring ASA Louisiana Chapter Meeting, LSU Health Science Center, New Orleans, LA
- 6 **Ji, X.** (2023, June) *Scalable phylogenetic inference with Hamiltonian Monte Carlo method*. Evolution 2023 meeting, Albuquerque, NM
- 5 **Ji, X.** (2023, March) *Scalable phylogenetic inference*. SCALA 2023: Scientific Computing Around Louisiana, Tulane University, New Orleans, LA

- 4 **Ji, X.** (2021, August) *Divergence time estimation with Hamiltonian Monte Carlo sampling and ratio transform*. Invited speaker at 2nd AsiaEvo Conference, Online
- 3 **Ji, X.** (2021, July) *Divergence time estimation with Hamiltonian Monte Carlo sampling and ratio transform*. Society of Molecular Biology and Evolution Meeting, Online
- 2 **Ji, X.** (2018, September) *Large-scale molecular epidemiology for viruses: efficient algorithms and new models*. Oral session presented at the Taishan Forum on Viral Infectious Diseases, Taishan Medical University, Tai'an, Shandong Province, China
- 1 **Ji, X.** (2017, August) *Phylogenetic approaches for quantifying interlocus gene conversion*. Quest for Ortholog 5 Meeting, University of Southern California, Los Angeles, CA

### **Poster Presentations**

- 2 **Ji, X.** (2017, July). *Phylogenetic approaches for quantifying interlocus gene conversion*. Society of Molecular Biology and Evolution Meeting, Austin, TX
- 1 **Ji, X.** (2014, June). *A Phylogenetic approach for quantifying interlocus gene conversion*. Evolution Meeting, Raleigh, NC

### **INVITED TALKS**

|    |                                                                                                                                                                  |            |

## SOFTWARE

---

### IGCexpansion

- My software for studying interlocus gene conversion.
- Available at <https://github.com/xji3/IGCexpansion>.

### IGC BEAST Tutorial

- A tutorial for the Bayesian method (under development) of quantifying interlocus gene conversion in BEAST.
- Available at [https://github.com/xji3/IGC\\_BEAST\\_Tutorial](https://github.com/xji3/IGC_BEAST_Tutorial).

### BEAST X

- I am a developer of the BEAST X software package.
- Available at <https://github.com/beast-dev/beast-mcmc>.

### BEAGLE

- I am a developer of the BEAGLE library.
- Available at <https://github.com/beagle-dev/beagle-lib>.

### Bito

- I collaborate with a group of statisticians and programmers to help them use my linear-time gradient algorithm implementations for their variational Bayesian phylogenetics development.
- Available at <https://github.com/phylovi/bito>.

## SYNERGISTIC ACTIVITIES

---

### Grant Panelist

- I served as a guest panel member for the UK MRC Better Methods, Better Research (BMBR) Panel in 2023.

### Professional service

- I serve as an Editorial Board member for *Scientific Reports* by Springer Nature since March 2026.

- I serve as an Editorial Board member for *Discover Viruses* by Springer Nature since June 2024.
- I serve as a Review Editor for *Frontiers in Statistical Genetics and Methodology* since March 2021.
- I have reviewed manuscripts for
  - *Nature Medicine* (3)
  - *Proceedings of National Academy of Sciences* (2)
  - *Molecular Biology and Evolution* (9)
  - *Systematic Biology* (1)
  - *Annals of Applied Statistics* (2)
  - *Journal of Computational and Graphical Statistics* (1)
  - *Bioinformatics* (1)
  - *Theoretical Population Biology* (1)
  - *The American Journal of Human Genetics* (1)
  - *Plos Pathogens* (1)
  - *Microbiology Spectrum* (1)
  - *IEEE/ACM Transactions on Computational Biology and Bioinformatics* (1)
  - *Frontiers in Public Health* (2)
  - *Frontiers in Virology* (2)
  - *BMC Ecology and Evolution* (1)
  - *Evolutionary Bioinformatics* (2)
  - *Scientific Reports* (1)
  - *International Journal of Data Mining and Bioinformatics* (1)
  - *Rapid Reviews: COVID-19* (1)
  - *Open Veterinary Journal* (1)

### **Departmental service**

- I am a faculty member of the consulting team in the Statistics Department at Iowa State University since Spring 2026.
- I led the development and establishment of a new Master of Science in Data Science program jointly hosted by the Math and Computer Science Departments at Tulane University.
- I served as the Director of Master Programs of the Math Department at Tulane University from Fall 2021 to Spring 2024.
- I served on the Graduate Study Committee of the Math Department at Tulane University from Fall 2021 to Spring 2024.
- I served on the Search Committee for a Professor of Practice in Statistics position from Fall 2021 to Spring 2023.
- I organize the Prob & Stats research seminar series of the Math Department at Tulane University since Fall 2023.
- I ran a tutorial workshop on building personal website for graduate students in the Math Department on 04/05/2022 (tutorial link: [xji3.github.io/Tutorial](https://xji3.github.io/Tutorial)).
- I serve on the School of Science & Engineering Cypress HPC committee as the representative for the Math Department in Spring and Summer 2025.

## Outreach

- I served as a panelist for the “Preparing Data for Statistical Analysis” workshop in Grad Mixer Wednesday on 03/11/2026 at Iowa State University.
- I served as a poster judge for the CALS research day poster competition on 02/03/2026 at Iowa State University.
- I served as an ASN student poster award judge for the Evolution 2025 meeting.
- I participated in the LA FIRST Lego League State Championship as a volunteer judge in January 2023.
- I participated in Boys at Tulane in STEM (BATS) and Girls in STEM at Tulane (GiST), organized by Tulane Center for K-12 System Education
  - Volunteer, Boys at Tulane in STEM (BATS), 03/18/2023
  - Volunteer, Boys at Tulane in STEM (BATS), 09/16/2023
  - Volunteer, Girls in STEM at Tulane (GiST), 11/04/2023
  - Volunteer, Girls in STEM at Tulane (GiST), 03/09/2024
  - Volunteer, Boys at Tulane in STEM (BATS), 04/13/2024
  - Volunteer, Boys at Tulane in STEM (BATS), 09/21/2024
  - Volunteer, Girls in STEM at Tulane (GiST), 10/26/2024
  - Volunteer, Boys at Tulane in STEM (BATS), 02/01/2025
  - Volunteer, Girls in STEM at Tulane (GiST), 03/22/2025
  - Volunteer, Boys at Tulane in STEM (BATS), 09/20/2025
  - Volunteer, Girls in STEM at Tulane (GiST), 10/11/2025
- I served as treasurer of the ASSIST<sup>7</sup> Student Leadership Council in 2012 and 2013. I participated in the Magnet Fair at South Raleigh Magnet High School as an ASSIST center graduate representative in 2012.

---

<sup>7</sup> ASSIST: The NSF Center for Advanced Self-Powered Systems of Integrated Sensors and Technologies at NC State University
